The world is green because of trees.

Trees are our best friends. Trees are of many kinds. Some are big. Some are small. Like us, a tree also has life.

It has roots. Roots go into the soil. They help a tree to pull up water and provide strong support.

Do you know, trees can make their own food? With the help of sun rays trees make their food in their leaves. The branches carry food to the different parts of a tree.

Trees help us in many ways.

We get oxygen from trees.

We cannot live without oxygen.

We get fruits and vegetables
from the trees. Some animals

feed on leaves and grass. Trees give us beautiful flowers. Trees give us shade. Wild animals like tiger, lion, deer, elephant etc. live in forests. We get wood from trees. Trees bring rain, too.

Trees hold the soil together with their roots.

#### The Three Fishes

Once upon a time, three fishes lived in a lake.

They were very close friends.

The first one was fool.

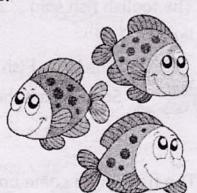

Second one was intelligent.

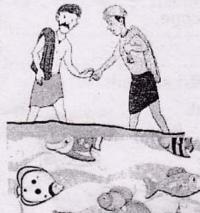

He thought he knew how

to solve a problem with his intelligence.

The third one was the wise one.

He thought long before taking any action.

One day, the Wise Fish was playing in the water.

He heard one fisherman talking to another.

"Look at that one! What a big fish!

Let us come tomorrow and catch them."

The Wise Fish swam to his friends to tell the news.

"Let's leave this lake .

A canal I know can take us to another lake," the Wise Fish said.

The intelligent Fish said, "I know what to do if the fishermen come to catch me."

The foolish fish said, "I was born in this lake and I am not going to leave it."

The Wise Fish did not want to risk his life.

So he swam through the canal and went to the other lake.

The two friends were caught.

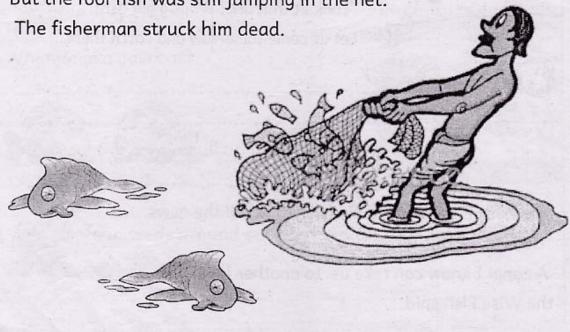

There were many other fishes in the net.

The intelligent Fish thought of a way to escape.

He acted as if he was dead.

The fisherman threw him back into the lake.

But the fool fish was still jumping in the net.
